## **DETAILED ACTION**

Claims 2, 4, 11 and 28-33 have been canceled.

### ***Election/Restrictions***

Applicants' election without traverse of Group III, claims 12 and 13 in the reply filed on December 3, 2007 is acknowledged. Accordingly, claims 1, 3, 5-10, 14-27 and 34-43 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to nonelected inventions, there being no allowable generic or linking claim.

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 13 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In line 1, the recitation "The drill" renders the claim indefinite since this is contradictory to parent claim 12, line 1 which recites "A seeder". To correct this, in claim 13, line 1, the recitation "The drill or seeder" should be corrected to --The seeder--.

***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 12 and 13 are rejected under 35 U.S.C. 103(a) as being unpatentable over Australian reference 53681/86 in view of World reference '458.

With respect to claim 12, Australian reference 53681/86 shows a seeder (Fig. 2) for depositing serial streams of seed (col. 2, lines 13-17) each into a trough in the ground, the seeder (Fig. 2) comprising each disc 10 having a bearing 16 mounted via bolts, unnumbered, Fig. 2 on the disc 10 from an inside (unnumbered) having a concavity (unnumbered) and a chute providing member 18 down which a stream of seeds (col. 2, lines 13-17) is to pass is attached to the bearing 16 from an outside 11,12 of the disc 10.

As to claim 13, the chute providing member 18 is attached in an angular disposition (unnumbered; Fig. 2) to a swinging arm 24,27.

Claim 12 distinguishes over Australian reference 53681/86 in requiring a plurality of discs.

World reference '458 shows in Fig. 1 that it is old for a seeder 1 to comprise a plurality of discs 6.

It would have been obvious to one of ordinary skill in the art at the time the invention was made to have provided the seeder (Fig.2) of Australian reference 53681/86 with a plurality of discs as shown in World reference '458 for a greater tillage/seeding area.

### ***Conclusion***

Applicants' amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
